

# RECYCLING WASTE MEANS CREATING OUR PLANET

By Secondary School G. Galilei Tradate (Italy)

# Only waste?

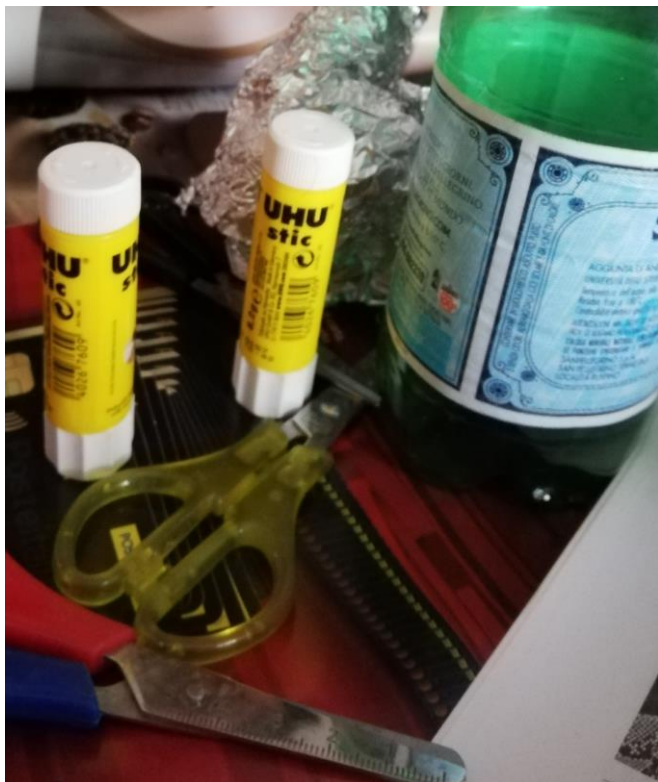

Their final destination is the bin

and finally the  
rubbish dump

Paper, plastic bottle, aluminum paper...All these things have already been used. Now they are only waste.

# From rubbish to flowers

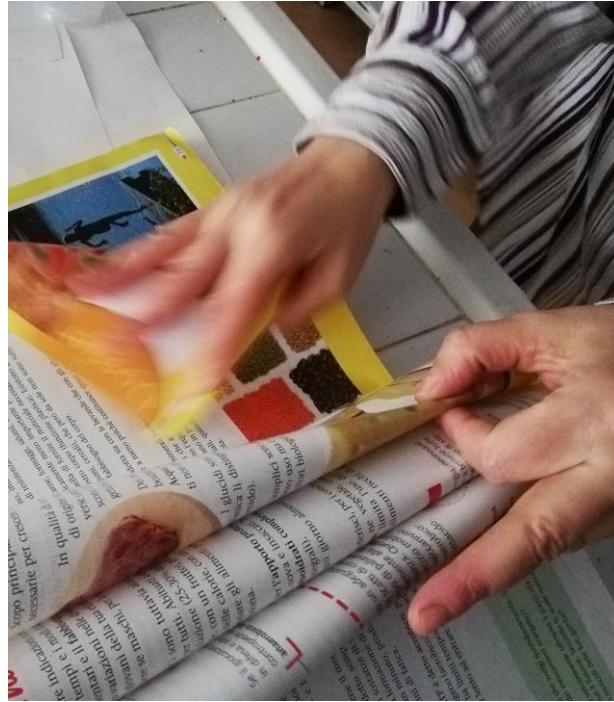

But if you use glue, scissors and your fantasy....

Flowers are born from the waste

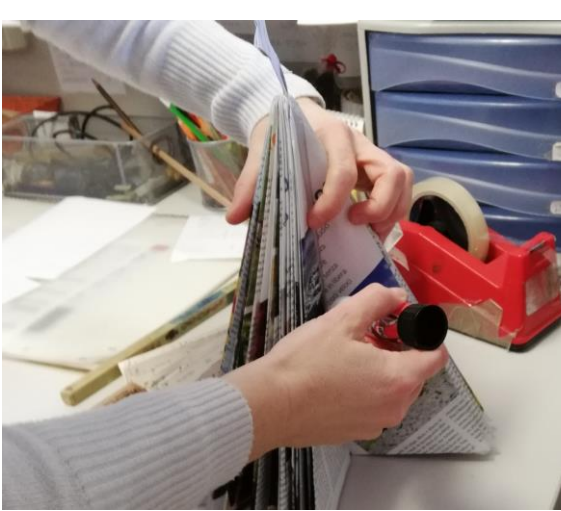

# Begin to work!

Do the washing-up and fold the paper...

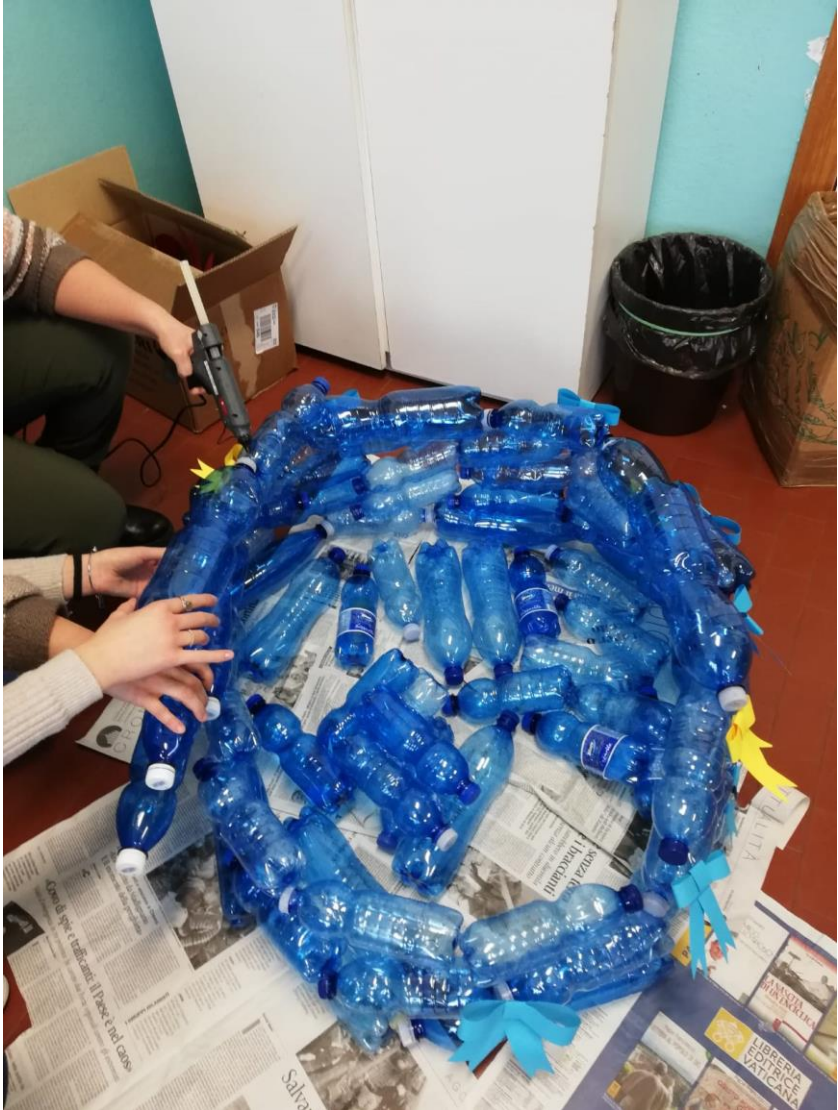

# Go on working!

Use scissors, stapler and glue

# Assemble!

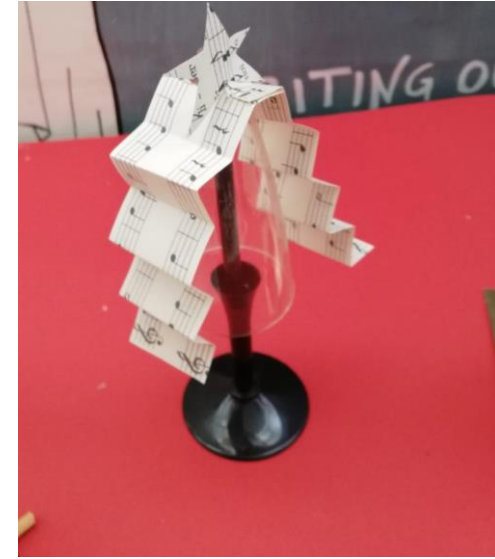

Bring single parts together!

# Christmas trees

You obtain ecological Christmas trees !!!

# Christmas trees

Trees are born from different waste

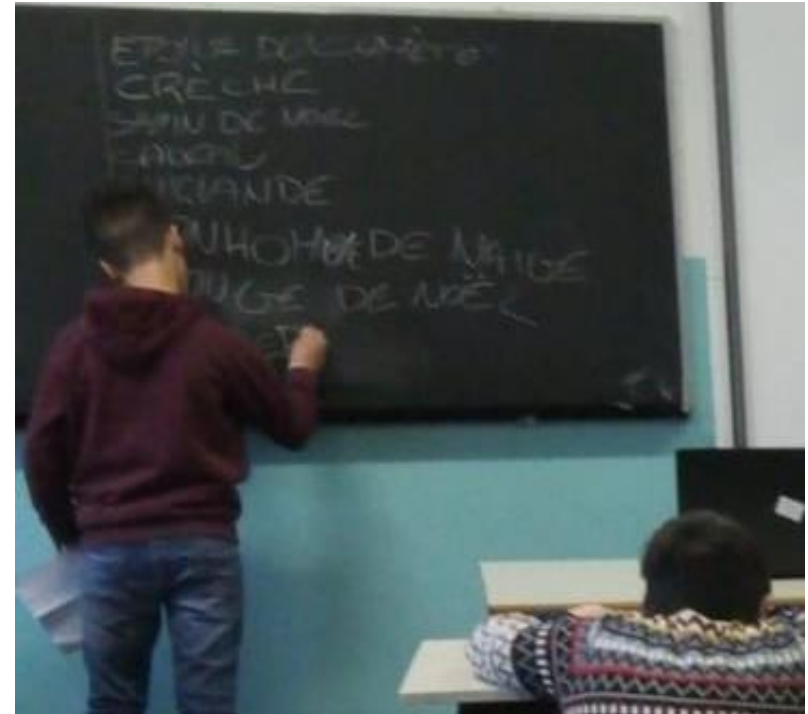

# Bracelets, flowers and other little things

Or if you prefer, you can make a lot of other beautiful things

# Explaining our work.

Children explain their work to their schoolmates
